

Hive Operations Engineer

BeezKneez Logistics | Copenhagen, Denmark | Full-time

BeezKneez Logistics is hiring a Hive Operations Engineer to keep our automated last-mile fleet humming. You will own the daily readiness of our routing controllers and partner with safety, supply, and software to ship reliable operations across Northern Europe.

Required qualifications

Requirement	Status
ISO 26262 functional safety experience	Required
Bachelor's degree in supply chain or related field	Required
Danish + English business fluency	Required
5+ years in operations or logistics engineering	Required
Python or SQL for data wrangling	Preferred
EU work authorisation	Required

Apply at careers@beezknees.example by 2026-06-15.
