Closeable gaps

4

Strength — direct evidence

Partial — adjacent / framing

Gap — not evidenced

Requirement Match

Requirement	Tier	Status	Evidence
Logistics, preparedness & planning	Required	Strong	Ten seasonal cycles in granary networks; readiness over six storage sectors.
Documentation & audit-readiness	Required	Strong	Records audited annually by Cold Storage Cooperative; CSCA-certified.
Contingency: rain, frost, grasshopper	Required	Strong	Authored region-wide procedures for exactly these conditions.
Inventory tracking & spreadsheets	Required	Strong	Weekly reconciliation on spreadsheets and colour-coded boards.
Calm under harvest pressure	Required	Strong	Steady execution through late-winter peaks; prepares early.
Winter Simulation Week	Resp.	Strong	Ran simulation cycles across three colonies, feeding gaps forward.
Subterranean storage engineering	Nice	Strong+	Patent EP-AC-0042, modular subterranean granary geometry.
Pheromone-route optimisation	Nice	Strong	Pheromone-trail mapping; published at Nordic Colony Symposium.

Gap Closure Plan — Candidate Tracker

Gap (tier)	How to close it	Closed? / Evidence
ERP migration: SAP / Oracle Pref.	Frame the colony ERP pilot migration you led as transferable ownership. Add a short SAP S/4HANA or Oracle Fusion overview module to attach a named platform. Do not claim proficiency yet.	☐ Closed
Large-scale grasshopper incidents Pref.	Cite region-wide grasshopper contingency procedures and the six-season ants-vs-grasshoppers retrospective. Position as procedural depth, not incident command. A tabletop simulation log adds proof.	☐ Closed
Python / SQL automation Pref.	Complete a short SQL-for-reporting or Python-for-analysts micro-course (8–12h). Meanwhile point to structured tracking systems already maintained. Attach one worked query or script.	☐ Closed
ISO 27001 / cyber awareness Pref.	Note existing ISO 9001 / 30301 / 31000 familiarity as adjacent governance. A 2–4h ISO 27001 foundation-awareness module closes the stated 'awareness' bar without overclaiming.	☐ Closed
German or Swedish Pref.	Lead with Danish as the Nordic working language plus professional English. Set Swedish as a stated learning goal (A1); its closeness to Danish makes early progress realistic. Low priority.	☐ Closed
Executive reporting Pref.	Reframe weekly operational reports and handover material as reporting discipline. Prepare one one-page executive summary sample. Do not overstate audience seniority.	☐ Closed

All four real gaps are preferred-tier only; none is a required criterion. Recommendations follow honest framing — adjacent experience is cited as adjacent, not claimed as held. AI-assisted — candidate retains responsibility for content.
